THIS IS UNEVALUATED INFORMATION

25X1

Work on a construction project in the vicinity of Briesen, not far from Priesack, was being carried out with great haste. Since workers on the project were ordered to keep the nature of the construction secret, it seemed that casernes or other military structures were being built. The project, however, has not been completed. The buildings which are finished now house the Tractor-Lending Station (Maschinen-Ausleih-Station) (MAS).
